Globe announces acquisition of Commercial Pro International's Countertop cooking equipment line

DAYTON, OH – August 24, 2010 - Globe Food Equipment Company is pleased to announce the acquisition of Commercial Pro International's (CPI) line of countertop cooking equipment.

CPI is based in Brentwood, TN and was established in 2006. Since that time, CPI has experienced tremendous success in developing quality products that meet the needs of value-minded customers. This achievement is all the more impressive in light of the challenges presented by today's economic environment.

The Commercial Pro line includes: electric fryers and griddles, sandwich, Panini and roller grills, an electric soup kettle, induction range, conveyor toaster, rice cooker, and a food warming lamp. This line of countertop cooking equipment complements Globe's food preparation products which are well known for quality and performance.

The Commercial Pro (CPI) product line is in stock and available for shipment. For more information concerning these products, or any of Globe's premier food preparation equipment, please contact Globe Food Equipment Co. at 937-299-5493 or visit www.globeslicers.com.
